

Use Case Template

ChargEV – Smart EV Charging Station Platform

1. Use Case Title	Navigate to Station
2. Abbreviated Title	Navigate to Station
3. Use Case Id	UC-06
4. Actors	EV Driver (Primary), Location Services API (Supporting)
5. Description	After booking, the EV Driver requests turn-by-turn directions from their current location to the reserved station.
5.1. Pre Conditions	1. A booking has been confirmed for a specific station.
5.2. Task Sequence	1. Driver taps "Navigate" from the booking confirmation or Dashboard. 2. System calls the Directions API with the driver's current location and the station's coordinates. 3. System computes the route and estimated time of arrival. 4. System displays the route on the map and starts turn-by-turn guidance.
5.3. Post Conditions	1. The driver is guided to the booked station.
6. Modification History	Date: September 18, 2026
